Owl Creek BMP Implementation Grant

General Program Objective

The Owl Creek BMP project will benefit the 450+ residents within the 134,985-acre watershed by providing buried or gated pipe, fixing head gates and pumps to minimize water loss, siltage, erosion, noxious weed spread and identifying outdated septic systems that could potentially prevent further water contamination.

Funding Overview

The amount of cost share available for each project is a maximum of 50% cost share up to \$2,500.00 per project. The Hot Springs County Conservation District (HSCD) Board of Supervisors, based upon review and recommendations from the District Conservationist, will determine the priority level of each project on a case-by-case basis. The applicant is required to invest at least 50% match for each project.

Selection Process and Timeline

Applications are due by the 15th of every month and arrangements will need to be made by the applicant to schedule an on-site visit of the proposed project. Final project approval will be made by the HSCD Board of Supervisors during a board meeting on the fourth Thursday of the month.

All projects must be pre-approved before being initiated and must be evaluated and/or certified upon completion, before reimbursement is made to applicant.

If the construction of this project crosses other landowner's properties, applicant will need to have discussed the proposed project and received preliminary access approval.

Applications may be mailed to HSCD, 601 Broadway Street Suite A, Thermopolis, WY 82443, or emailed to hotspringscd@gmail.com For more information, please contact Dara Culp at 307-864-3488.
